# Lyric Me

`npm package` `6.14.1`

Our concept for this project was to create an application that would allow users to search for songs and display the lyrics for that song.

## Table of Contents

## General info

Our motivation for developing this application was to simplify finding lyrics to songs, while simultaneously allowing for that song to play in the background.

## Installation

```
npm install http-server -g
```

## Usage

```
